

Substitutes and number limitations

As we have a very small pool of players willing to substitute (at all levels) it is very difficult to match pairs to make up teams, or to find a single player to make up a pair

It is advisable that players make their own arrangements if possible (barring emergencies of course)

Maximum table number is 90

Both Pairs and Teams events are **stand alone.**

There is no preferential entry for players entering both.

The entry cut-off is activated automatically by the system.
